

Current research group

M. Komarneni
A. Sand
Dr. E. Kadossov
R. Mahalakshmi
J. Justin
Dr. Reine Abba
J. Hjelle

All students and I attend regularly conferences.

Shown here "Great Wall" in China & conference in Tinjin.

New mailing address: Dr. Uwe Burghaus
Associate Professor - Surface Chemistry
Department of Chemistry and Molecular Biology
NDSU Dept. 2735, PO Box 6050, Fargo,
ND 58108-6050, USA

For DHL, FedEx and UPS deliveries, please use:
Department of Chemistry and Molecular Biology,
NDSU Ladd Hall 208, 1231 Albrecht Blvd, Fargo,
ND 58102, USA

Alumni

**Do I have a life after a Ph.D. or MS
in surface chemistry?**

U. Burghaus
Department of Chemistry
& Molecular Biology
NDSU

August 2009

Alumni

Dr. Shamus Funk graduated with Ph.D. in four years (Nov. 2004 – Dec. 2007) and is working for Agave Bio-systems, a nanoscience startup company in Niagara (NY). He obtained the 2008 NDSU college graduate student award for excellence in research.

John Goering graduated with MS in two years (January 2007 - August 2008) and went back into his old profession as a HS teacher in Minnesota.

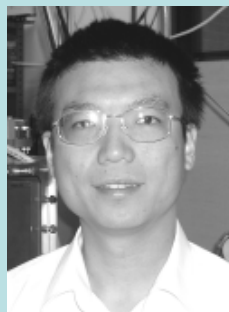

Brian Hokkanen graduated with a BS and is working for the research and development department of Chelanese (Texas). He conducted for several years (2004 – 2007) undergraduate research in our group.

Tarik Nurkic joined us with an URM fellowship (Jan. 2006 – Dec. 2007) to conduct undergraduate research. He obtained the 2008 NDSU “Donal Bolin Memorial” award. He plans to attend med. school.

Elliott Johnson, a physics major, graduated with a BS and joined the graduate school in Stony Brook (NY) which is associated with Brookhaven National Labs. He conducted two years (2004 – 06) of undergraduate research in our group.

Dr. Jinhai Wang, was a postdoctoral associate for 18 months. Currently employed at the center for polymeric materials at NDSU.

Sweta Sah, Biotechnology student. She joined a graduate school in NY after gaining undergraduate research experience (2007/08).

No matter if you would like to graduate fast or slow, we will find an interesting project for you.

You want to Live & Work

for Surface Chemistry ?
